**UNIKLINIK  
KÖLN**

Welcome  
to the  
University  
Eye Hospital

*We are always here at your service, taking care of your eyes around the clock on 365 days a year. The Eye Hospital of the University Hospital of Cologne has top specialists for all diseases of the eye.*

**Dear Ladies and Gentlemen,**

It is with great delight that we take this opportunity to put some important information about the Eye Hospital of the University Hospital of Cologne into your hands. We want your stay with us as a patient to feel right, and we pledge to do our best to provide you with the most optimal treatment for your eyes.

Yours sincerely,

**Prof. Dr. Claus Cursiefen**

Chairman of the Department of General Ophthalmology at the University of Cologne & Managing Director of the University Eye Hospital Cologne with Outpatient Eye Clinic

**Prof. Dr. Bernd Kirchhof**

Chairman of Retinal and Vitreal Surgery

**The Dept. of Ophthalmology and University Eye Hospital Cologne**

- › One of the three largest University Eye Departments in Germany
- › A nationally and internationally recognized center of excellence for corneal transplantation and the treatment of corneal diseases, cataract, glaucoma, dry eye/graft-versus-host disease (GvHD), diseases of the retina and the vitreous, age-related macular degeneration (AMD), strabismology, as well as diseases of the eyelids and tear ducts and orbit, and ocular tumors
- › We perform the most glaucoma surgeries in all of Germany.
- › Cologne's very own eye bank has helped us become one of the most experienced centers for both lamellar (DMEK, DALK) and penetrating corneal transplantation surgeries worldwide.
- › We do top-level research in all of our main focus areas in consortiums and projects that are supported by the German Research Foundation (DFG; [www.for2240.de](http://www.for2240.de)), the European Union and by industry. We are devoted to the continuous improvement of the therapies used to treat eye disease. In this endeavor, we are supported by the Chair of Experimental Immunology of the Eye.
- › We have our own medical care center (MVZ) for many types of outpatient surgeries, including laser surgeries on the cornea and lens, integrated AMD-treatment, and special consultation hours for dry eye.
